

Dovetail Slot

Channel Systems

These products both allow vertical movement whilst offering horizontal restraint. The channel system tends to be face-fixed while the slot is usually cast into concrete. These systems may be used to overcome differences in coursing between masonry leaves.

Cast in dovetail slot, available in stainless steel or pre-galvanised steel. These systems are pre-filled with polystyrene to prevent concrete ingress.

Sizes	Units	Per	75mm- 300mm	
100mm	250	Box	Tensile Load	2960N
			Tensile Load Mortar End	5636N
150mm	250	Box	75mm-200mm	
			Compressive load capacity	4896N
3000mm	25	Bundle	200mm-300mm	
			Compressive load capacity	1470N

Safety

manufactured from sheared plate and strip so may contain sharp edges. Suitable personal protection should always be used when handling/installing these products
