

## Galvanised Plaster Stop Bead

### Product description/ specification:

This product provides a straight and clean edge to wet plaster where it butts up to other materials, such as door and window frames. Should be fixed in place with plaster or mortar dabs otherwise, can be nailed. Generally for internal use, as the Stainless Steel alternative is recommended for external use.

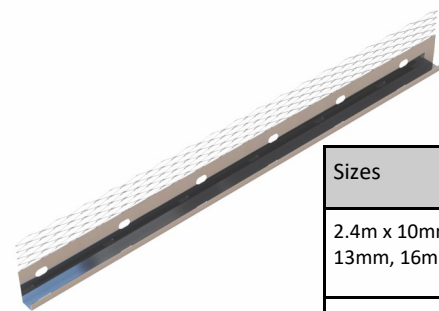

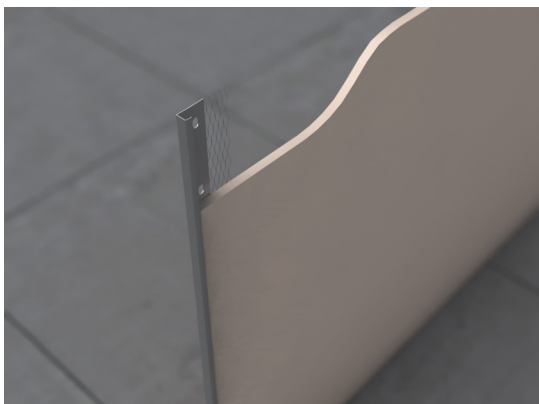

Sizes	Per box
3.0m x 10mm	50 lengths
3.0m x 13mm	50 lengths
3.0m x 16mm	50 lengths
3.0m x 19mm	50 lengths

## Stainless Steel Plaster Stop Bead

### Product description/ specification:
