

Coil Mesh

Brickwork Reinforcement

This type of product increases the rigidity of masonry panels by introducing steel into the bed joint of the wall, either to merely resist cracking or in a more structural sense.

Product - Coil Mesh

An expanded metal mesh available in various widths, stainless or galvanized steel. Designed to be incorporated into masonry for crack control. Mesh size 20mm x 10mm.

Galvanised weight: 0.9Kg/m². Stainless Steel weight 1.11Kg/m². Available in 20m rolls:

Galvanized	Stainless Steel
65mm	65mm
115mm	115mm
178mm	178mm
225mm	225mm
305mm	

Material Specification

Galvanized coils made from: BSEN 10142 DX51 (g275)

Stainless Steel coils made from: BSEN 10088-2 grade 1.4301

Safety Precautions

Coil Mesh is manufactured from sheared plate and strip so may contain sharp edges. Suitable personal protection should always be used when handling/installing these products.
